Forward-looking statements

This presentation contains forward-looking statements, including, but not limited to, the statements and expectations contained in the "Outlook" section of this presentation. Statements herein, other than statements of historical fact, regarding future events or prospects, are forward-looking statements. The words "may", "will", "should", "expect", "anticipate", "believe", "estimate", "plan", "predict," "intend' or variations of these words, as well as other statements regarding matters that are not historical fact or regarding future events or prospects, constitute forward-looking statements. ISS has based these forward-looking statements on its current views with respect to future events and financial performance. These views involve a number of risks and uncertainties, which could cause actual results to differ materially from those predicted in the forward-looking statements and from the past performance of ISS. Although ISS believes that the estimates and projections reflected in the forward-looking statements are reasonable, they may prove materially incorrect, and actual results may materially differ, e.g. as the result of risks related to the facility service industry in general or ISS in particular including those described in the Annual Report 2016 of ISS A/S and other information made available by ISS.

As a result, you should not rely on these forward-looking statements. ISS undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent required by law.

The Annual Report 2016 of ISS A/S is available at the Group's website, www.issworld.com.

| Strategic Initiatives | Ongoing Key Account focus and implementation of GREAT continues to deliver positive results including securing the largest contract in ISS's history Continued investment in technology, including the roll-out of Intergration@ISS Integration of Guckenheimer, Evantec and Signal developing according to plan |

Key contract updates

DXC.technology

- Our contract with **DXC Technology** ceased as of 1 October...
- ...although c. 10% of the contract value has been retained for a 6-month period (principally Cleaning & Support Services in Europe)...
- ... we expect slightly more than a 1% negative impact on Group organic growth in Q4 and a negative impact on group margin (loss of mature contract)
- Our contract with **HP Inc.** will cease, on a phased basis, starting 1 February 2018
- We continue our efforts to secure some ongoing services for HP Inc. beyond Q1 2018

- Our contract with Shire was successfully launched in North America in June...
- ...and we continue to ramp-up our service delivery to 20,000+ Shire employees across more than 40 countries
- More than 1,200 sub-contractors have been consolidated under ISS
- Performance to-date is in line with expectations with a 'run-rate' of c. 70% during Q3
- Shire will account for c. 1% of group revenue when fully operational

- C*20

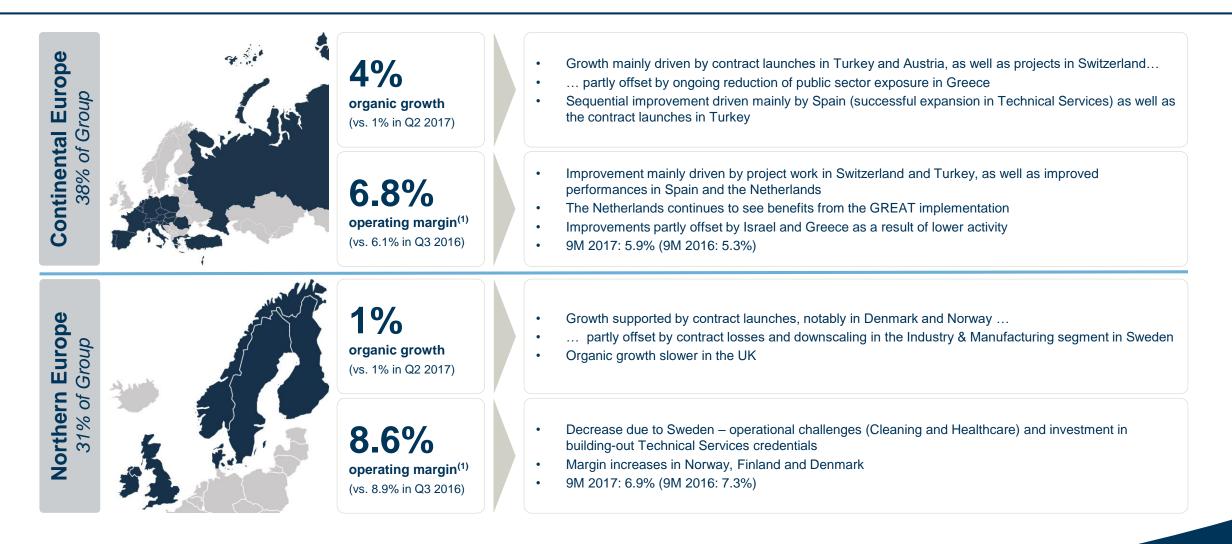

- FORSVARSMINISTERIETS EJENDOMSSTYRELSE
- 6-year IFS contract signed with the Danish Defence
- Starting in February 2018 it will become the largest facility services contract ever outsourced in Denmark (c. DKK 0.5bn per annum) amounting to a near doubling of the contract value
- The partnership builds on an initial contract won in 2014 covering Western Denmark
- Under the new contract covering the entire country, ISS will deliver a range of services (across more than 500 sites)
 - Technical services
 - Building maintenance
 - Cleaning
 - Catering

Outlook

Outlook 2017

Organic Growth 'around 2%'

Previously: 1.5% - 2.5% (2016 3.4%)

Operating Margin

'In line with the 2016 level excl. acquisitions, divestments and FX'

Previously: 'Above the level realised in 2016' (2016: 5.78%⁽¹⁾)

Cash Conversion 'Above 90%'

(2016: 98%)

- The narrowing of the organic growth expectation is mainly a result of our increased visibility on full year
 performance
- Overall growth will continue to be supported by the positive developments across a number of our countries and further success in IFS, driven by both expansion of existing customer relationships and new customer wins
- The growth continues to be impacted by weaker 2017 revenue in Sweden and China, a generally weaker demand for non-portfolio services and a negative impact from the reduction in revenue with DXC Technology, commencing in Q4 2017

Impact on total revenue from divestments, acquisitions and foreign exchange rates in 2017

- We expect a negative impact from development in foreign exchange rates of approximately 2%⁽²⁾
- We expect a positive impact from divestments and acquisitions of approximately 1%⁽³⁾
- The reduction of the operating margin expectation is mainly a result of the continued significant negative impact from acquisitions and divestments as well as negative currency translation effects of around net 0.1%point
- Furthermore, the weaker margin performance seen in especially Sweden and North America is expected to continue into the first half of 2018
- In addition, we are impacted by a change in mix of our contract portfolio as a number of our mature contracts have either been replaced by new contracts or have been renewed
- Unchanged from Annual Report 2016 outlook
- (1) Re-stated for the reclassification of discontinued operations (Argentina and Uruguay)
- (2) The forecasted average exchange rates for the financial year 2017 are calculated using the realised average exchange rates for the first ten months of 2017 and the average forward exchange rates (as of 1 November, 2017) for the last two months of 2017
- 3) Based on divestments and acquisitions completed by 31 October 2017
