

Interim report for 1 January – 30 June 2024

Robust financial development

Highlights

Financial performance update

- Organic growth was 5.8% in Q2 2024 (Q2 2023: 10.9%), and 5.9% in H1 2024 (H1 2023: 11.4%), mainly driven by price increases implemented across the Group and positive volume growth.
- Operating margin before other items (excl. IAS 29) improved to 4.9% in H1 2024 from 4.7% in H1 2023 as a result of continued operational improvements across the Group.
- Free cash flow was DKK (1.7) billion in H1 2024 (H1 2023: DKK (1.6) billion) reflecting normal seasonality with negative effect from changes in working capital, including Deutsche Telekom withholding certain payments.

Business update

- As announced on 8 August 2024, ISS has been awarded a 7-year contract, subject to signing, with the UK Department of Work and Pensions (DWP) with an expected annual revenue of DKK 1.2 billion.
- ISS extended several key account contracts including the longstanding global IFS partnership with Barclays.
- The contracts with DEFRA in the UK and the Danish Building and Property Agency are now fully operational and performing according to expectations.
- In April 2024, ISS acquired gammaRenax in Switzerland and completed the divestment of ISS France.
- The arbitration process with Deutsche Telekom progressed according to plan.

Outlook

- 2024 outlook for organic growth is narrowed to 5 – 6% (previously 4 – 6%) on the back of the performance in H1 2024. Outlook for operating margin above 6% and free cash flow above DKK 1.7 billion are maintained.

Group performance

Operating results

ISS Global A/S is an indirectly wholly owned subsidiary of ISS A/S, a leading, global provider of workplace and facility service solutions. ISS Global A/S owns – directly or indirectly – the ISS Global Group's operating companies (together referred to as "ISS" or "the Group").

For further information about ISS Global A/S, see ISS Global A/S's Annual Report 2023, which is available at the Group's website, www.issworld.com.

Group revenue in the first six months of 2024 was DKK 40.7 billion, an increase of 6.1% compared with the same period last year. Organic growth was 5.9% as the development from Q1 was sustained. Acquisitions and divestments, net contributed 1.0% which was more than offset by adverse currency effects of 2.4%. The net impact from hyperinflation restatement in Türkiye (IAS 29) was positive 1.6%.

Organic growth was 5.9% in the first half of 2024 (H1 2023: 11.4%), primarily driven by implementation of price increases and volume growth as a result of increased activity levels at customer sites and contract expansions across the Group. Portfolio revenue benefitted positively from this development and grew by 8.1% organically.

ISS continued to implement price increases in line with contractual agreements to mitigate the effects of wage increases and general cost inflation. This had a positive effect on organic growth of around 6.5%-points of which around half related to Türkiye.

Volume growth contributed around 1%-point to organic growth. This was driven by a combination of increased activity levels at customer sites and

expansion of contracts with existing customers mainly in Northern Europe and Asia & Pacific.

Net contract wins were negative by around 1%-point, primarily driven by contracts lost and exited during 2023. This was partially offset by the start-up of the contracts with DEFRA in the UK and the Danish Building and Property Agency during Q2 2024.

Revenue from projects and above-base work showed negative organic growth of 5%, and thereby had a negative contribution of just below 1%-point to organic growth for the Group. The decline was driven by lower demand for deep cleaning and disinfection work, projects related to customers' refurbishment programmes and a negative contribution from exits and losses of certain contracts. Projects and above-base work accounted for 15% of Group revenue and remained well above the pre-pandemic revenue level.

Revenue from key account customers continued its solid development and organic growth was 5%, driven by price increases, increased activity levels and investments in the workplace. Key accounts' share of Group revenue was 71% (H1 2023: 72%).

From a regional perspective, organic growth was mainly driven by Central & Southern Europe and Northern Europe, due to price increases and volume growth. This was partly offset by negative organic growth in Americas, where contracts lost and exited during 2023 had full revenue impact in the first six months of 2024. Organic growth in Asia & Pacific was 3%, as the positive effect from price increases and volume was partly offset mainly by lower demand for projects and above-base work.

Revenue and growth

DKK million	H1 2024	H1 2023	Organic growth	Acq./ div.	Currency & other adj.	Revenue Growth
Northern Europe	15,376	14,428	6%	(0)%	1%	7%
Central & Southern Europe	13,397	11,721	12%	4%	(2)%	14%
<i>Central & Southern Europe, excl. IAS 29</i>	<i>13,212</i>	<i>12,171</i>	<i>12%</i>	<i>4%</i>	<i>(7)%</i>	<i>9%</i>
Asia & Pacific	7,049	7,037	3%	(1)%	(2)%	0%
Americas	4,535	4,773	(3)%	-	(2)%	(5)%
Other countries	349	400	(15)%	-	2%	(13)%
Corporate / eliminations	(15)	(14)	-	-	-	-
Group ¹⁾	40,691	38,345	5.9%	1.0%	(0.8)%	6.1%

¹⁾ The net impact from hyperinflation restatement in Turkey (IAS 29) was 1.6% on Group-level, that has been included in Currency & other adj.

Operating profit before other items was DKK 1,945 million (H1 2023: DKK 1,769 million) and operating margin was 4.8% (H1 2023: 4.6%). Excluding the effect from IAS 29 (Türkiye hyperinflation) operating profit before other items amounted to DKK 1,965 million (H1 2023: DKK 1,825 million) corresponding to an operating margin of 4.9% (H1 2023: 4.7%).

The increase in operating margin in the first half of 2024 was mainly a result of continued operational improvements and efficiencies realised across the Group. Margin on the Deutsche Telekom contract improved due to continued operational improvements and the run rate margin in the UK improved as expected. In addition, the margin benefitted from certain one-off income in Asia & Pacific.

ISS has established a shared services centre in Gdansk, Poland, which focuses on driving cost efficiency in transactional services. The transition of services from primarily European country organisations to the shared services centre was initiated in 2023 and continued in 2024 driving additional costs in H1.

All regions contributed to the margin improvement. In Northern Europe, operational improvements were partly offset by mobilisation costs incurred leading to a margin improvement. In Central & Southern Europe, the margin increase was primarily a result of continued improvements on the Deutsche Telekom contract. In Americas, margin improved due to a combination of operational improvements and exit of less profitable contracts. In Asia & Pacific, margin was positively impacted by margin improvements across the region and non-recurring income.

Financial expenses, net was DKK 189 million (H1 2023: DKK 243 million) including a monetary gain of DKK 63 million relating to hyperinflation restatement in Türkiye (IAS 29). Excluding the impact from IAS 29, financial expenses, net was DKK 126 million (H1 2023: DKK 203 million), as the negative effect from higher interest expenses was offset by increased interest income and a lower contribution from foreign exchange losses.

The effective tax rate in H1 2024 was 24.0% (H1 2023: 16.9%) and 22.3% (H1 2023: 17.1 %) when adjusted for the impact of IAS 29. The effective tax rate was positively impacted by the release of valuation allowances on deferred tax assets in Germany similar to last year, whereas the impact from hyperinflation adjustments in Türkiye impacted negatively.

Net profit from discontinued operations in H1 2024 was a loss of DKK 76 million (H1 2023: loss of DKK 1,400 million) related to the loss generated in ISS France up until the divestment on 9 April 2024. In H1 2023, the net profit was negatively impacted by impairment of goodwill and other non-monetary items of DKK 1,257 million as a result of the decision to divest ISS France.

Net profit was DKK 818 million (H1 2023: DKK (624) million).

Operating profit before other items

Commercial development

In the first six months of 2024, ISS successfully extended the long-standing partnership with Barclays for an additional 5 years as well as a number of other significant key accounts across the Group.

Furthermore, ISS won a new 7-year contract with North London Mental Health Hospital in the UK and secured several smaller and mid-sized local IFS contracts in the first half of 2024. ISS also ended a few large key account contracts in the first six months of 2024.

In addition, as announced on 8 August 2024, ISS has been awarded a 7-year contract (subject to signing) with the UK Department of Work and Pensions (DWP) with an expected annual revenue of DKK 1.2 billion. Under the contract, ISS will be delivering integrated facility services across more than 800 sites in the UK with expected go-live in October 2025.

The commercial pipeline within our prioritised customer segments remains attractive, predominately in relation to local and regional opportunities, where the activity level has been high. In general, the commercial landscape is beginning to open up, with commercial processes stabilising after longer cycles post-pandemic when customers' future real estate needs were more uncertain.

ISS has a legacy of driving social mobility in local markets and with our signature objectives on living wages, recognised qualifications and recognition and respect, ISS offers strong support to customers on driving their social sustainability agenda. These commitments are integrated in our partnership with Barclays and social sustainability is generally becoming an increasingly important parameter for customers and with our self-delivery operating model, ISS is strongly positioned.

¹⁾ Annual revenue above DKK 100 million.

Free cash flow

Free cash flow in H1 2024 was DKK (1,734) million (H1 2023: DKK (1,629) million), a decrease of DKK 105 million compared to the same period last year. Free cash flow in H1 2024 was negatively impacted by changes in working capital including Deutsche Telekom withholding payments to ISS. This was partly offset by improved operating profit before other items.

Cash flow from operating activities in H1 2024 amounted to DKK (1,031) million (H1 2023: DKK (953) million), a decrease of DKK 78 million due to negative contribution from changes in working capital and increased interest and tax payments partly offset by improved operating profit before other items.

Changes in working capital in H1 2024 was DKK (1,622) million (H1 2023: DKK (1,454) million) mainly due to an increase in receivables of DKK 1,295 million reflecting normal seasonality and including withholding of payments from Deutsche Telekom and reduction in payables of DKK 315 million (H1 2023: increase of DKK 94 million). Utilisation of factoring increased by DKK 157 million to DKK 1.6 billion on 30 June 2024. The development was in line with higher revenue from key account customers, where invoices are eligible for factoring, as per the factoring policy.

Cash flow from investing activities in H1 2024 amounted to DKK (1,621) million (H1 2023: DKK (199) million), an increased outflow of DKK 1,422 million, primarily due to acquisitions and divestments. Acquisitions amounted to DKK 302 million (H1 2023: DKK 0 million) related to gammaRenax in Switzerland and divestments was an outflow of DKK 330 million (H1 2023: inflow of DKK 59 million) driven by France.

Fixed-term deposit investments of DKK 745 million related to placement of excess liquidity until bond repayment in December 2024.

Investments in intangible assets and property, plant and equipment, net, was DKK 239 million (H1 2023: DKK 289 million), which represented 0.6% of Group revenue (H1 2023: 0.8%) and reflected continued strict investment discipline.

Cash flow from financing activities in H1 2024 amounted to DKK 2,716 million (H1 2023: DKK (87) million), an increase of DKK 2,803 million, related to issue of EUR 500 million bond.

Capital structure

The ISS Global Group is indirectly wholly owned by ISS A/S and is therefore part of the ISS A/S Group. Group Treasury manages financing activities and capital structure centrally for the ISS A/S Group as a whole. The ISS Global Group's financing activities and capital structure are not assessed independently of the ISS A/S Group.

As of 30 June 2024, net debt was DKK 9.1 billion, an increase of DKK 2.5 billion compared to 31 December 2023. The increase was driven by negative free cash flow in H1 2024.

In June 2024, ISS successfully issued a EUR 500 million bond with a coupon of 3.875%. The bond has maturity in June 2029 and the net proceeds will be used for general corporate purposes.

Equity

On 30 June 2024, equity was DKK 8,108 million (31 December 2023: DKK 7,126 million), equivalent to an equity ratio of 16.9% (31 December 2023: 15.9%). The increase in equity from year-end 2023 was mainly a result of Net profit of DKK 818 million. Hyperinflation (IAS 29) restatement of equity in Türkiye as of 1 January 2024 was DKK 242 million (1 January 2023: DKK 164 million).

Events after the reporting period

No events have occurred subsequent to 30 June 2024, which are expected to have a material impact on the Group's financial position.

Regional performance

Northern Europe

Revenue amounted to DKK 15,376 million in the first six months of 2024, which was an increase of 7% compared with the same period last year. Organic growth was 6% (H1 2023: 6%). The effect from acquisitions and divestments, net was neutral, while currency effects impacted growth positively by 1%.

Organic growth was mainly driven by price increases implemented across the region and volume growth from increased activity levels at customer sites. Portfolio revenue and revenue from projects and above-base work both grew by around 6% organically. The positive organic growth was mainly driven by the UK and Denmark supported by startup of large contracts in both countries. All countries in the region reported positive organic growth with the Netherlands showing the highest growth rates driven by contract start-ups, continued growth in food services and strong demand for above-base services.

Operating profit before other items amounted to DKK 680 million in H1 2024 (H1 2023: DKK 626 million) corresponding to an operating margin of 4.4% (H1 2023: 4.3%). During the first half of the year, strong operational execution and efficiencies drove margin improvement across the region, and in the UK, the run rate margin improved in line with expectations. The margin improvements were, however, partly diluted by mobilisation costs related to startup of larger contracts.

Central & Southern Europe

Revenue amounted to DKK 13,397 million in the first six months of 2024, which was an increase of 14% compared with the same period last year. Organic growth was 12% (H1 2023: 19%) and the effect from acquisitions and divestments, net increased revenue of 4% related to the acquisition of Grupo Fissa in Spain and gammaRenax in Switzerland. Currency effects impacted growth negatively by 7%, while the net impact from hyperinflation restatement in Türkiye (IAS 29) was positive with 5%.

The organic growth was primarily driven by Türkiye where price increases were successfully passed on to customers to offset the continued high cost inflation, and in the beginning of 2024 another round of price increases was successfully implemented. Across the region, the development was robust, and as a result portfolio revenue grew by 16% organically, while revenue from projects and above-base work showed negative organic growth driven by reduced demand for refurbishment projects as well as deep cleaning and disinfection services.

Operating profit before other items excluding IAS 29 amounted to DKK 697 million in H1 2024 (H1 2023: DKK 620 million) corresponding to an operating margin of 5.3% (H1 2023: 5.1%). The positive margin development was primarily driven by continued operational improvement and efficiencies on the Deutsche Telekom contract. Across the region, the strong operational performance was maintained, which also supported the margin development. Including the effect of IAS 29, operating profit before other items amounted to DKK 677 million, corresponding to a margin of 5.1% (H1 2023: 4.8%).

Ownership of ISS Türkiye

ISS Türkiye is jointly owned by private equity fund Actera (39.9%), management of ISS Türkiye (10%) and ISS (50.1%) being the controlling shareholder. The shareholders' agreement between ISS, Actera

and management establishes the rights and obligations of the parties, including rights and restrictions on transferring shares, such as right of first refusal, drag along rights from Q4 2024 and right to explore a potential Initial Public Offering (IPO). In line with the terms of the shareholders' agreement, Actera has initiated a dialogue to explore their potential exit options. Please refer to page 11 in the Annual Report 2023.

Asia & Pacific

Revenue amounted to DKK 7,049 million in the first six months of 2024, which was flat compared to the same period last year. Organic growth was 3% (H1 2023: 7%). The effect from acquisitions and divestments, net was negative 1%, and currency effects impacted revenue negatively by 2%.

The positive organic growth was driven by price increases implemented across the region and volume growth as a result of increased activity level at customer sites. This development was, however, partly offset by exits of contracts and resulted in 7% organic growth in portfolio revenue. Revenue from projects and above base work showed negative organic growth due to lower demand for deep cleaning and disinfection services, especially in Hong Kong, Singapore and Australia and negative effects from contract exits. All countries in the region reported positive organic growth, except for Hong Kong due to the negative development for projects and above-base services.

Operating profit before other items amounted to DKK 481 million in H1 2024 (H1 2023: DKK 414 million) corresponding to an operating margin of 6.8% (H1 2023: 5.9%). The development reflected operational improvements and efficiencies being executed across the region. In addition, the margin benefitted from certain one-off income related to employee tax refunds in Australia and government grants in Singapore. All countries in the region reported improved margins compared to the same period last year.

Americas

Revenue amounted to DKK 4,535 million in the first six months of 2024, which was a decrease of 5% compared to the same period last year. Organic growth was negative 3% (H1 2023: 20%). The effect from acquisitions and divestments, net was neutral, while currency effects impacted revenue negatively by 2%.

The negative organic growth was primarily driven by contracts exits and losses from 2023, including deliberate exits, having a full effect in the period and a volume reduction with existing customers. This was only partly offset by price increases implemented across the region to offset cost inflation. This had a negative effect on portfolio revenue which declined by 3% organically. The US was the main driver behind the development, as both Mexico and Chile reported positive organic growth. Revenue from projects and above-base work declined organically by 7%, negatively impacted by the mentioned contract exits and losses.

Operating profit before other items amounted to DKK 209 million in H1 2024 (H1 2023: DKK 189 million) corresponding to an operating margin of 4.6% (H1 2023: 4.0%). The positive development was a result of operational improvements and efficiencies across the region. In addition, the margin benefitted from deliberate contract exits in the US.

2024 Outlook

ISS Global A/S is an indirectly, wholly owned subsidiary of ISS A/S and an integrated part of the ISS A/S Group.

In the first half of 2024, the organic growth was robust, driven by price increases and volume growth, while the contribution from net contract wins and projects and above-base work was slightly negative. The operating margin developed in line with plan. Free cash flow was, as expected, negatively impacted by changes in working capital, including Deutsche Telekom withholding certain payments to ISS.

The outlook assumes that macroeconomic and geopolitical uncertainties remain high. ISS has robust operating processes and is well positioned to operate in this environment. The execution of the OneISS strategy will continue and enhance the operating model, strengthen competitiveness, and increase focus on growth initiatives. The outlook is excluding any effects of hyperinflation (IAS 29).

Organic growth

5 – 6% (previously: 4-6%)

(2023: 9.7%)

Organic growth is narrowed to the higher end of the previous range and is now expected to be 5 – 6% (previously 4 – 6%) as a result of successful implementation of price increases across the Group and solid customer activity levels. Net contract wins are now expected to be slightly negative, compared to previously slightly positive due to contract exits. Revenue from projects and above-base work is inherently subject to high uncertainty, particularly towards the end of the year and is expected to contribute slightly negative to organic growth for the full year.

Operating margin¹⁾

> 6%

(2023: 5.3%)

Operating margin is expected to be above 6%. Compared to the 2023 underlying margin of 5.5%, the main drivers of the increase are continuing operational improvements and efficiencies across the Group as well as operational benefits and cost savings generated from the review of the OneISS initiatives.

¹⁾ Based on operating profit before other items

Free cash flow

> DKK 1.7 billion

(2023: DKK 1.8bn)

In 2024, free cash flow is expected to be above DKK 1.7 billion, adversely impacted by timing effects including certain payments being withheld by Deutsche Telekom.

Other revenue impacts

Acquisitions and divestments, net

~ 1%-point (positive)

Based on acquisitions and divestments completed by 31 July 2024 (including in 2023).

Foreign exchange rates

~ 2%-points (negative)²⁾

Based on current exchange rates, excluding any effects of hyperinflation (IAS 29).

²⁾ The forecasted average FX rates for 2024 are calculated using the realised average FX rates for the seven months of 2024 and the average forward FX rates (as of 1 August 2024) for the remaining five months of 2024.

2024 Outlook	Annual report 2023	Interim report H1 2024
Organic growth	4 - 6%	5 - 6%
Operating margin ¹⁾	> 6%	> 6%
Free cash flow	> DKK 1.7bn	> DKK 1.7bn

¹⁾ Based on Operating profit before other items.

Forward-looking statements

This report contains forward-looking statements, including, but not limited to, the guidance and expectations in Outlook. Statements herein, other than statements of historical fact, regarding future event or prospects, are forward-looking statements. The words may, will, should, expect, anticipate, believe, estimate, plan, predict, intend or variations of such words, and other statements on matters that are not historical fact or regarding future events or prospects, are forward-looking statements. ISS has based these statements on its current views with respect to future events and financial performance. These views involve risks and uncertainties that could cause actual results to differ materially from those predicted in the forward-looking statements and from the past performance of ISS.

Although ISS believes that the estimates and projections reflected in the forward-looking statements are reasonable, they may prove materially incorrect, and actual results may materially differ, e.g. as the result of risks related to the facility service industry in general or ISS in particular including those described in this report and other information made available by ISS. As a result, you should not rely on these forward-looking statements. ISS undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, expect to the extent required by law.

The Annual Report of 2023 of ISS Global A/S is available at the Group's website, www.issworld.com.

Management statement

Copenhagen, 13 August 2024

The Board of Directors and the Executive Management have today discussed and approved the interim report of ISS Global A/S for the period 1 January – 30 June 2024.

The condensed consolidated interim financial statements have been prepared in accordance with IAS 34 “Interim Financial Reporting” as adopted by the EU and additional requirements of the Danish Financial Statements Act. The interim report has not been reviewed or audited.

In our opinion, the condensed consolidated interim financial statements give a true and fair view of the Group's assets, liabilities and financial position at 30 June 2024 and of the results of the Group's operations and consolidated cash flows for the financial period 1 January – 30 June 2024.

In our opinion, the Management review includes a fair review of the development in the Group's operations and financial conditions, the results for the period, cash flows and financial position as well as a description of the most significant risks and uncertainty factors that the Group faces.

1 Basis of preparation

The condensed consolidated interim financial statements of ISS Global A/S for the period 1 January - 30 June 2024 comprise ISS Global A/S and its subsidiaries (collectively, the Group) and have been prepared in accordance with IAS 34 "Interim Financial Reporting" as adopted by the EU and additional requirements of the Danish Financial Statements Act.

The report does not include all the information and note disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's consolidated financial statements as at 31 December 2023.

The accounting policies applied are consistent with those applied in the preparation of the Group's consolidated financial statements for the year ended 31 December 2023, except for the adoption of a number of new and amended standards, which became applicable for the current reporting period. None of these amendments have had a material impact on the Group's financial statements, including notes.

New regulation not yet mandatory

IASB issued amended standards and interpretations, which are not yet mandatory for the condensed consolidated interim financial statements.

Based on the current business setup and level of activities, except for IFRS 18, none of these standards and interpretations are expected to have a material impact on the recognition and measurement in the condensed consolidated interim financial statements.

[IFRS 18 "Primary financial statements"](#), effective on or after 1 January 2027, sets out requirements for presentation and disclosure of financial statement aiming to improve the structure and content of the primary financial statements. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but might change the presentation of certain items, including definitions of certain required subtotals.

ISS has not yet analysed the impact of the new standard, but will do so in due course.

2 Significant accounting estimates and judgements

The preparation of condensed consolidated interim financial statements required management to make judgements, estimates and assumptions that affected the application of policies and reported amounts of assets and liabilities, income and expenses as well as the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities in future periods.

Except for the judgements and estimates commented upon in the notes of these condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2023, cf. Estimates and judgements on p. 56 in the consolidated financial statements for 2023.

3 Segments

ISS is a leading, global provider of workplace and facility service solutions operating in 30+ countries. Operations are generally managed based on a geographical structure in which countries are grouped into regions.

The regions have been identified based on a key principle of grouping countries that share market conditions and cultures. Countries where we do not have a full country-based support structure, which are managed by our Global Key Account organisation, are combined in a separate segment "Other countries".

Long-Term Incentive Programme (LTIP)

In March 2024, a new annual LTIP programme (LTIP 2024) was established, and a total of 1,059,044 performance-based share units (PSUs) were granted to members of the EGM (EGMB and Corporate Senior Officers of the ISS A/S Group) and other senior officers of the Group. Upon vesting, each PSU entitles the holder to receive one share at no cost. Subject to certain criteria, the PSUs will vest after three years. The programme and vesting criteria are further described in note 6.2 in the consolidated financial statements for 2023.

LTIP 2024

Fair value (DKKm)	
At grant date	104
PSUs and participants (number)	
Participants	130
PSUs granted	1,059,044
Maximum PSUs at initial grant date	1,185,302

Vested programmes

In March 2024, the LTIP 2021 programme vested. Based on the annual EPS and TSR performance for 2021, 2022 and 2023, 64% of the granted PSUs vested. After this vesting, no further PSUs are outstanding under the LTIP 2021, and the programme has lapsed.

6 Other income and expenses, net

(DKKm)	YTD 2024	YTD 2023
Gain on divestments	6	16
Other income	6	16
Loss on divestments	(3)	(5)
Integration costs	(9)	(5)
Acquisition costs	(7)	-
Other	(10)	-
Other expenses	(29)	(10)
Other income and expenses, net	(23)	6

[Gain on divestments](#) related to the divestment of the travel management business in Sweden. In 2023, the gain related to the divestment of the Landscaping business and Sanitation Services in Singapore.

[Loss on divestments](#) in 2024 related to the divestment of the Ground Service business in Austria. In 2023 mainly related to the divestment of the security business in Spain.

[Integration costs](#) mainly related to Grupo Fissa in Spain (acquired in 2023).

[Acquisition costs](#) mainly related to the acquisition of gammaRenax in Switzerland in 2024.

7 Discontinued operations and assets held for sale

On 22 December 2023, ISS signed an agreement to divest ISS France to Onet SA, a French facility services company. The divestment was completed on 9 April 2024 and consequently, at 30 June 2024 no businesses were classified as held for sale.

Profit or loss

(DKKm)	YTD 2024	YTD 2023
Revenue	662	1,334
Expenses	(704)	(1,430)
Operating profit before other items	(42)	(96)
Other income and expenses, net	(25)	(302)
Royalty	(5)	(32)
Goodwill impairment	-	(937)

Financial income/(expenses), net	(3)	(7)
Net profit before tax	(75)	(1,374)
Income tax	(1)	(26)
Net profit from discontinued operations	(76)	(1,400)

In 2024, net profit from discontinued operations related to France (2023: France and Brunei) and comprised net profit generated in the business up until the completion of the divestment on 9 April 2024. In addition, the preliminary divestment loss recognised in 2023 was reassessed on the basis of the final closing balance in the business. This led to a negative adjustment of DKK 25 million, which was recognised in H1 2024 as presented in the table above in Other income and expenses, net.

Changes in receivables	(1,295)	(1,523)
Changes in payables	(315)	94
Total	(1,622)	(1,454)

9 Acquisitions

The Group completed two acquisitions in the period 1 January - 30 June 2024:

gammaRenax

On 25 April 2024, ISS acquired 100% of the shares in gammaRenax AG in Switzerland. The acquisition will strengthen our market position in Switzerland even further by adding scale within our existing core service offerings (IFS, cleaning, technical and janitorial), as well as creating better density across the country and growth in our prioritised customer segments.

The acquisition adds annual revenue of approximately DKK 510 million and more than 2,000 employees (estimated based on unaudited financial information). Since completion of the acquisition, gammaRenax contributed revenue of DKK 102 million to the ISS Group.

The purchase consideration amounted to DKK 364 million.

Due to the short time between completion of the acquisition and finalisation of these condensed consolidated interim financial statements, the Group has not yet completed the acquisition accounting. Consequently, the fair value of certain assets and liabilities, such as customer contracts, has been determined based on management's best estimates as the necessary analyses and calculations could not be completed.

Goodwill amounted to DKK 190 million (preliminary assessment) and is attributable mainly to: 1) strengthened platform for growth, 2) synergies and scale benefits and 3) assembled workforce. Goodwill is not deductible for tax purposes.

Med-Serv

On 29 February 2024, ISS acquired 100% of the shares in Med-Serv in Austria. The acquisition will strengthen our market position in Austria, enhancing our cleaning and technical services, increasing our presence in the province of Lower Austria, and supports growth in the healthcare segment.

The acquisition adds annual revenue of approximately DKK 97 million, and more than 226 employees (estimated based on unaudited financial information). Since completion of the acquisition, Med-Serv contributed revenue of DKK 21 million to the ISS Group.

Net assets and cash flow impact

[Deferred consideration](#) related to the divestment of ISS France, where part of the consideration is deferred up to three years from the date of divestment.

Divestments after the reporting period

No divestments were completed in the period 1 July - 31 July 2024.

11 Free cash flow

Free cash flow as defined by management is summarised below. Free cash flow is not a financial performance measure defined by IFRS. Accordingly, the measure and its calculation is presented as it is used by management as an alternative performance measure in managing the business.

The free cash flow measure should not be considered a substitute for those measures required by IFRS and may not be calculated by other companies in the same manner. Thus, reference is also made to the IFRS measures included in the Group's consolidated statement of cash flows.

(DKKm)	YTD 2024	YTD 2023
Cash flow from operating activities	(1,031)	(953)
Acquisition of intangible assets and property, plant and equipment	(239)	(289)
Disposal of intangible assets and property, plant and equipment	8	9
Changes in financial assets ¹⁾	6	10
Addition of right-of-use assets, net	(478)	(406)
Total	(1,734)	(1,629)

¹⁾ Excluding changes in equity-accounted investments of DKK (9) million (2023: DKK 10 million).

12 Impairment tests

The Group performs impairment tests on intangibles, i.e. goodwill, brands and customer contracts, annually and whenever there is an indication that intangibles may be impaired. The annual impairment test is performed as per 31 December based on financial forecasts approved by management covering the following financial year.

At 30 June 2024, the review performed did not indicate impairment of the carrying amount of intangibles. Based on the review performed, it is management's opinion, that excess values are fairly resilient to any likely and reasonable deteriorations in the key assumptions applied and presented in note 3.2 in the consolidated financial statements for 2023.

13 Loans and borrowings

Refinancing of bonds

On 29 May 2024, ISS issued a 5-year bond with a principal amount of EUR 500 million and a coupon of 3.875%. The bond was issued under the Group's EUR 3 billion European Medium Term Note (EMTN) programme, which is listed on the Luxembourg Stock Exchange. The net proceeds will be used for refinancing the Group's EUR 300 million EMTNs maturing in December 2024 as well as for general corporate purposes.

As part of the Group's ordinary liquidity management, excess liquidity from the bond issue of DKK 2,533 million (EUR 340 million) has been placed as fixed-term deposits maturing in Q4 2024 in alignment with the bonds maturing. Deposits amounting to DKK 745 million have been classified as Securities and reported within Fixed-term deposit investments, whereas the remaining deposits of DKK 1,788 million have been classified as Cash and cash equivalents.

New interest rate swaps

To partially hedge the exposure to changes in fair value of the new bond, the Group entered into interest rate swap agreements with a nominal amount of EUR 250 million in June 2024, whereby the Group receives a fixed rate interest and pays a variable interest rate on the nominal amount. Changes in the fair value of the interest rate swaps (the hedging instruments) are recognised in profit or loss under Financial income or Financial expenses. Changes in the fair value of the hedged items (the bonds) attributable to the risk being hedged are recognised as part of the carrying amount of the bonds and recognised in profit or loss under Financial income or Financial expenses. In H1 2024, no ineffectiveness was recognised in profit or loss (2023: no ineffectiveness).

14 Pensions and similar obligations

For interim periods, the Group's defined benefit obligations are based on valuations from external actuaries carried out at the end of the prior financial year taking into account any subsequent movements in the obligation due to pension costs, contributions etc. up until the reporting date. Actuarial calculations are only updated to the extent that significant changes in applied assumptions have occurred since 1 January. Based on an overall analysis carried out by management, it is determined whether updated actuarial calculations should be obtained for interim periods.

At 30 June 2024, the overall evaluation carried out by management resulted in updated actuarial calculations being obtained for Switzerland, the UK and Türkiye due to market fluctuations, which had impacted interest rates, inflation rates and asset values. The updated calculations led to recognition of actuarial losses of DKK 25 million and gain on plan assets of DKK 265 million, which was more than offset by impairment from asset ceiling of DKK 332 million due to surplus restrictions. The net loss of DKK 92 million was recognised in other comprehensive income with a resulting increase in the Group's defined benefit obligations.

15 Provisions

(DKKm)	Legal claims and disputes	Self- insurance	Restruc- turings	Onerous contracts	Other	YTD 2024	YTD 2023
At 1 January	158	263	74	26	225	746	1,071
Foreign exchange adjustments	(0)	9	-	-	6	15	(5)
Additions	22	133	-	-	10	165	139
Used during the year	(35)	(136)	(63)	(3)	(39)	(276)	(275)
Unused amounts reversed	(21)	(4)	-	(4)	-	(29)	(77)
Reclass (to)/from other liabilities	-	-	-	-	77	77	58
At 30 June	124	265	11	19	279	698	911
Non-current	29	155	1	3	217	405	471
Current	95	110	10	16	62	293	440

At 30 June 2024, provisions amounted to DKK 698 million, a decrease of DKK 48 million compared to 31 December 2023. The decrease was mainly due to utilisation of restructuring provisions established as part of the OneISS review in 2023, most significantly related to Germany.

16 Hyperinflation in Türkiye

The table below shows the accounting impact of the hyperinflation restatements for the period 1 January - 30 June 2024:

(DKKmn)	Inflation restatement, in year effect					YTD 2024 (reported)
	YTD 2024 (excl. IAS 29)	Non- monetary items	Profit or loss	Retrans- lation (end rates)	Total adjust- ments	
Profit or loss						
Revenue	40,506	-	264	(79)	185	40,691
Operating profit before other items	1,965	(35)	20	(5)	(20)	1,945
Operating profit	1,395	(44)	20	(5)	(29)	1,366
Net profit	814	4	-	-	4	818
Financial ratios (%)						
Organic growth (non-IFRS)	5.9%	-	-	-	-	5.9%
Operating margin (non-IFRS)	4.9%	(0.1%)	0.0%	0.0%	(0.1%)	4.8%
Cash flows						
Cash flow from operating activities	(1,035)	-	-	4	4	(1,031)
Cash flow from investing activities	(1,621)	-	-	-	-	(1,621)
Cash flow from financing activities	2,716	-	-	-	-	2,716
Free cash flow (non-IFRS)	(1,739)	-	-	5	5	(1,734)

	Inflation re- statement,		
	YTD 2024 (excl. IAS 29)	accumu- lated	YTD 2024 (reported)
Financial position			
Goodwill	14,644	879	15,523
Other intangible assets	1,266	360	1,626
Right-of-use assets and property, plant and equipment	2,995	127	3,122
Total assets	46,530	1,366	47,896
Other comprehensive income ¹⁾	(976)	1,140	164
Other equity elements	7,841	103	7,944
Total equity	6,865	1,243	8,108
Deferred tax liabilities	606	123	729
Total equity and liabilities	46,530	1,366	47,896

¹⁾ In year impact of restatement amounted to DKK 242 million (2023: DKK 164 million).

17 Events after the reporting period

No events have occurred subsequent to 30 June 2024, which are expected to have a material impact on the Group's financial position.

Our global footprint

ISS is a leading, global provider of workplace and facility service solutions. In partnership with customers, ISS drives the engagement and well-being of people, minimises the impact on the environment, and protects and maintains property. ISS brings all of this to life through a unique combination of data, insight and service excellence at offices, factories, airports, hospitals and other locations across the globe. In 2023, Group revenue was DKK 78.7 billion.
